

"Reflections of Knysna"

Visual Art Installation for the Knysna Waterfront

Conceptualized and co-ordinated by local artist and art teacher

Faith DuPlessis of the [Art House Knysna](#).

The Reflections of Knysna Art Installation is a collaborative work by 48 local artists, who transformed 159 individual blocks of wood into a visual story of Knysna. The project highlights not only the beauty of Knysna, but also the incredible creativity and community spirit.

Each of the blocks shows a special part of Knysna: with some historical references; the ever inspiring natural beauty; breath taking landscapes; landmarks; our unique flora and fauna and even a few hints of the magical legends of Knysna. Everything residents and visitors to our beautiful town should look out for while exploring this wonderful slice of paradise on the Garden Route.

The following local artists participated in this project:
